Good Shepherd is supporting the 16 Days to End Gender-Based Violence and its focus on the world of work for women. The campaign is calling on governments across the world to ratify the newly adopted International Labour Organisation (ILO) Convention 190. The four themes of the campaign are Economic Insecurity, Intimate Partner Violence, Women's Health and Invisible Labour. Gender-based violence against women workers is linked to their ability to work, which has serious financial implications. Disrupted work histories, lower or loss of income, and frequent changes in jobs impacts women's economic security, including contributing to poverty in older women.
