

Bogor, 28th April 2020.

Dear sisters and brothers,

I'd like to let you know the solidarity act through the food material distribution.

We experienced 2 distribution events on Saturday for 25 packages, and on Tuesday for 190 packages. All together are 215 packages.

On Saturday the sisters giving out materials were worried when suddenly many people make a queue to get a package. We greeted them and explained that we only have little. So they understood and left. At this time, our workers are on holiday for welcoming the Muslim fasting season.

From that experience we learned how to distribute without making people queue or group around our compound. Yesterday we briefed our staff and some ideas involved giving some tickets with the time arrangement written on the ticket. This morning we had a short briefing to make sure that only 10 people would come at the one time. The first/second some people tried to come and asked for service. But when they knew that they needed the ticket, they left as they did not have.

On the evaluation, the staff shared their experiences in identifying the people that seemed to have most need. When the people came to pick up the food packages, some staff who met the people in our compound also shared how they welcomed them in a friendly way, asking them where they earn the money, where they live, how they got the ticket etc. Evaluation of this information brought some discoveries and some clarifications. All also learned to decide the priority of those in most need to be able to receive what we had.

There are also other ways we can improve on other occasions, such as the best time to meet people. Today we went out too early. This meant that there were many people passing us who could not get a ticket. God will provide them more than we can give.

So, we the Good Shepherd Sisters in Bogor with all the staff here are thanking you to allow us to make this event of solidarity happen. We took this opportunity, as we celebrate our founder St. Mary Euphrasia. Also, we with you all, are caring for our sisters and brothers who are in difficulties, as a result of the impact of Covid19.

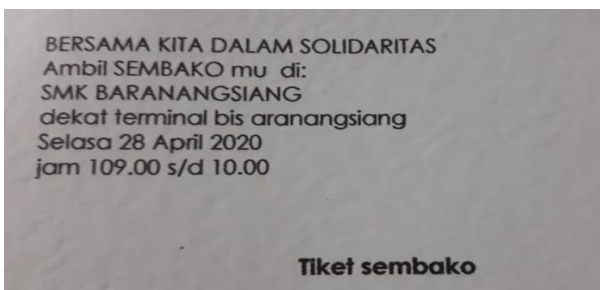

May God bless people who are connected with us through our effort and kindness in share what we have for some people in this action. And May God bless you all

good people, who carry our brothers and sisters in difficult situation in your Spirit of solidarity.

Here we send you the financial report
