

## Responding to COVID-19

Photo on left: Sister Goretti Samosir sets off on her journey of volunteering

Photos below show her working with JKCM, Catholic network response to COVID-19, and BAKKAT

Photos show unused land being transformed into vegetable gardens.  
Thank God for the two workers!

Chillies planted in containers

Taro and potatoes in sacks

Plants include food and herbs such as spinach, kale, tomatoes, radish, red beans, beans, string beans, cucumber, varieties of small chilli, red curly, taro (purple and white), orange, lemon, pumpkin, luffa, lemon grass, guava, basil, celery, turmeric, galangal, ginger, chives, garlic, onions, moringa, papaya, horn banana, fan banana.

Manure was bought from the farmers in a nearby village where many people raise goats and chickens.
