

No Violence against Women and Children

In Macau, our action plan divided into 3 parts.

First, on 25th November, we had posted an advertisement on Macau Newspapers, which the most popular newspaper in Macau. Let Macau residents knowing STOP VIOLENCE TOWARDS WOMEN. And we also promoted our “online” game on the same advertisement.

The game which Macau residents upon 18 could join, they just needed to answer questions correctly about domestic law in Macau. The participants could join our lottery part which they joined to win awesome prizes, we estimated more than 5,000 people joined. Our purpose of the game was raising awareness of domestic violence, stop violence towards women.

The last part of our action plan was a 2020 monthly calendar. The

content is about children’s rights and how to protect children. We cooperated with Macau Caritas and some NGOs for spreading over 1500 calendars to Macau residents. Our slogan on the calendar is “safeguarding our children, say no to violence”.

We thought our action plan was promoted successfully; the target groups are Macau residents. We estimated over thousands of people could read or join our action plan. We also appreciated Macau Social Welfare Bureau, they given us financial support.
