

Fountain of Life Women's Center Pattaya Thailand Information session

On Friday 13th March 2015, the Fountain of Life Women's Center presented a session for women. Part of the presentation was raising awareness of the possible dangers that women could face when travelling abroad to gain employment.

It was our pleasure to receive Dr. Uthai Ativet and other members of the Office of International People's Rights Protection based in Bangkok, Chunburi and Pattaya.

312 women participated in the event which started at 9.00am and finished at 2.00pm.

Approximately 30 to 40 questions were raised and answered and 28 women received private counselling during or after the event.

The women were advised to make contact with the Thai Embassy if in need of help or advice when abroad.

During our presentation, the Attorney General of the prosecutor's office, Mr. Pramod Nopsiri in Pattaya came to our Center. He was happy to have the opportunity to visit the center and to learn about the needs of the women who come here.

We asked him if a public prosecutor could visit us approximately every two weeks to provide counselling about the legal rights of the women. This is our plan for the year 2015.
